

# SOLARA ECHO STUDIO

CINEMATIC DELAY • ATMOSPHERE • FREEZE CLOUD

SolaraEcho Studio is a premium cinematic delay and atmosphere engine designed for immersive sound design, ambient textures, evolving echoes, and emotional spatial movement.

## SIGNATURE FEATURES

### FREEZE CLOUD

Capture evolving atmosphere and transform audio into suspended ambient textures.

### CRYSTAL

Add pitch-shifted harmonic diffusion for cinematic shimmer and emotional depth.

### SHIMMER

Introduce glowing octave bloom into reverb tails and ambient layers.

### DIFFUSE

Smear echoes into soft atmospheric motion and wide cinematic space.

### MAGIC

Adds subtle modulation movement and evolving spatial character.

### SPACE

Expands the size and depth of the surrounding atmosphere for immersive results.
